SUMMARY

I am a BS Computer Science student (4th semester) and a Front-End Web Developer with strong problem-solving abilities. Skilled in building clean, functional, and user-focused applications with basic knowledge of backend development. Responsible, organized, and dedicated to meeting both personal and organizational goals.

LEARNING

YOUTUBE

- Watching free lectures on YouTube helped me learn basic information.

Udemy

- Completed comprehensive web development course, gaining proficiency in front-end technologies, including HTML, CSS, JavaScript, and more.

PROJECTS

Sanofi, Multiple Sclerosis

- Multiple Sclerosis (MS) Landing Page
- Designed and developed a responsive single-page website for a client to present educational resources on Multiple Sclerosis (MS) and highlight recent advancements in treatment and care.
- Tech: HTML, CSS, JavaScript, React, Bootstrap

CRUD Web Application

- Built a responsive CRUD application with create, read, update, and delete functionality using HTML, CSS, and JavaScript, integrated with Firebase for backend database and real-time operations.
- Tech: HTML, CSS, JavaScript, React, Firebase
